***Outpost Investment Group, LLC Selects Sky Road
-Global macro fund to leverage cross asset functionality of platform***

Chicago, IL, 9 February, 2009 – Sky Road LLC, a leading solutions provider to the financial community, today announced that Outpost Investment Group, LLC, a New York-based global macro-focused investment management firm, has selected the Sky Road Platform. The Sky Road Platform ASP solution will provide cross asset portfolio management and support trading, risk, and operations functions.

Outpost was seeking a comprehensive, cross-asset solution with quick time-to-market and advanced risk management capabilities to upgrade and replace their existing system. Outpost selected Sky Road's hosted solution because it offers the advantages of an ASP – speed of implementation, scalable and flexible infrastructure – coupled with the robust, multi-asset platform necessary for trading across a range of G10 fixed income, currency, equity, and commodity instruments. Under the arrangement, Sky Road will tailor the architecture to connect directly to both Outpost's fund administrator and execution management system.

The platform, powered by the Calypso® Trading and Risk Management Platform, will also play a strategic role for Outpost in facilitating integration of the firm to various partners for trading, market data, administration, brokerage and lifecycle management. The Sky Road platform leverages Calypso's open architecture, which facilitates system integration and provides comprehensive front-to-back office support for multiple asset classes including FX, futures, equities, and interest rates.

Jason Bajaj, Chief Investment Officer at Outpost, comments, "By selecting Sky Road we knew we would be getting an optimal combination of fast implementation, deep expertise, and superior functionality. Sky Road has a distinguished track record supporting demanding and sophisticated trading strategies across a breadth of instruments, while maintaining the highest focus on risk management available. After seeing Sky Road's ability to meet an aggressive delivery schedule, the decision to go with Sky Road was an easy one."

John Borse, CEO of Sky Road LLC, comments, "We are pleased to be working with Outpost Investment Group, LLC, an addition to our growing roster of global macro fund clients. Their deep experience in the global capital markets reinforces the richness and proven extensibility of our solution, especially for global macro funds engaged in elaborate, cross asset strategies. This is an exciting time to be engaged with Outpost as strategic partners and we are committed to helping them realize growth."

About Outpost Investment Group, LLC

Outpost Investment Group, LLC is a global investment management firm that seeks to achieve diversified global macro returns by combining top-down macro research with bottom-up micro catalysts. The Global Macro Fund seeks to achieve its objective through the creation of investment ideas in an asset class agnostic framework by combining its variant perception philosophy with active risk management. With the public policy implications of the global capital markets as its foundation, the Fund looks to preserve capital while identifying and seeking unique sources of stable alpha, irrespective of market conditions, primarily, through G20 fixed income, currency, equity and commodity investments.
