

## **Sky Road Solution Awarded Bloomberg Server API Certification**

- Bloomberg certifies Sky Road Server API integration for hosted and enterprise clients

Chicago, 24 August 2009 - Sky Road LLC, a leading solutions provider to the financial community, today announced the firm's integration with Bloomberg Server API to offer Sky Road clients access to Bloomberg real-time data. Bloomberg has fully certified the Sky Road Bloomberg Server API Integration.

The expanded Sky Road offering now couples the firm's robust multi-prime, cross-asset, front-to-back-office platform with Bloomberg's real-time data. By integrating the Bloomberg Server API into the Sky Road offering, Sky Road clients benefit from access to the vast universe of Bloomberg data, now fully integrated into the Sky Road solution.

As part of the Bloomberg certification process, Sky Road demonstrated a proprietary permission model that locks down exchange and contributor data to ensure entitlement compliance.

"We are excited to include Bloomberg Server API integration as part of our growing product suite," says John Borse, CEO of Sky Road. "Today's financial service firms need access to accurate, scalable, and cost-effective market data alternatives. We have integrated Bloomberg to address these challenges and to meet the increasing demand for Bloomberg data."

### **About Sky Road LLC**

Sky Road LLC ([www.skyroadasp.com](http://www.skyroadasp.com)) is a leading software-as-a-service solutions provider to the financial community. Sky Road has the unique ability to customize solutions to the needs of its clients.
